#### Project Comments and Notes:

- First off thank you so much for all your help this semester Professor Gildein!
- For the project the ^\* works and the |, the () have a possibility of working or partially working, those were a bit tricky to implement, but for the most part things should work.
- I think I got the DOT file stuff working properly

#### Commands that will run:

```
java -jar target/grepy-0.0.2-jar-with-dependencies.jar '1^*' testCode.txt
java -jar target/grepy-0.0.2-jar-with-dependencies.jar '0|1^*' testCode.txt
java -jar target/grepy-0.0.2-jar-with-dependencies.jar '(0|1)^*0' testCode.txt
java -jar target/grepy-0.0.2-jar-with-dependencies.jar '0|1' testCode.txt
```
